

## Detailed Blitz Rules

In effect for the OSCF Championship, Seaside, Oregon, April 27-28, 2012

Based on USCF blitz rules (2008) with some modification

- 1.) The time-control is G/5. Each player must make all his moves in the time specified for the game.
- 2.) All the clocks must have a special device, usually called a “flag”, either a regular flag or some device on a digital clock that indicates a flag fall.  
Standard timer for blitz chess:
  - 2a) Whatever timer is used (analog or digital), a standard timer must continue to run for both sides even if one side’s time has expired. (See 8c).
  - 2b) A digital timer (given it meets the requirements of 2a) is preferred over an analog timer due to the precision of setting and the accuracy of timing. If no digital timer is available, then an analog timer may be considered standard.
  - 2c) The player with the black pieces chooses the standard timer.
- 3.) Before play begins, both players should inspect the position of the pieces and the setting of the clock, since once each side has completed a move the position on the board and the time on the clock remain as set.
  - 3a) If the king and queen are set up incorrectly, it is legal to castle short on the queenside and long on the kingside.
  - 3b) If an illegal position is created or an illegal move made without the opponent making a claim, the position stands and a claim not allowed when the opponent has determined a next move.
- 4.) Each player must press the clock with the same hand that moves the pieces.
  - 4a) When castling a player may use both hands.
  - 4b) When completing a promotion both hands may be used if it is clear that the clock is pressed after the move is determined.
- 5.) The tournament director may state at the start of the event the direction the clocks are to face, and the player with the Black pieces then chooses the side of the table on which to sit.
- 6.) Except for pressing the clock, neither player should touch the clock except:
  - 6a.) To straighten it.
  - 6b.) If a player knocks over the clock a penalty may be assessed.
  - 6c.) If your opponent’s clock does not tick you may press his side down and re-press your side; however, if this procedure is unsatisfactory, please call for a director.
  - 6d.) Each player must always be allowed to press the clock after their move is made.

6e.) A player should not keep a hand on or hover over the clock.

7.) *Defining a win*

A game is won by the player:

7a.) Who has checkmated his opponent's king.

7b.) Whose opponent resigns.

7c.) Whose opponent's flag falls first, at any time before the game is otherwise ended by stopping the clock prior to the player's own clock's flag fall and has mating material. Mating material consists of (at a minimum) two minor pieces, a pawn, a rook or a queen provided it isn't a position where one could claim it to be a draw under section 8.

7d.) Who after an illegal move is completed by the opponent, then takes the king (if the king is in check) or claims the win and stops the clock, before the player determines a move.

7e.) An illegal move doesn't negate a player's right to claim on time, provided it is done prior to the opponent's claim of an illegal move. If the claims are simultaneous, the player who made the illegal move loses.

8.) *Defining a draw*

A game is a draw:

8a.) If one of the kings is stalemated.

8b.) By agreement between the players.

8c.) If the flag of one player falls after the flag of the other player has already fallen and a win has not been claimed, unless either side mates before noticing that both flags are down.

8d.) If one player has insufficient mating material when the opponent's flag falls or makes an illegal move.

"Insufficient Losing Chances"(ILC) claims are not allowed.

9.) A legal move is completed when the hand leaves the piece. If a player moves one piece and releases his fingers, then moves another, and presses the clock, the opponent may press the player's clock to force the player to move the original piece if that piece has a legal move or may stop the clock to claim a violation. A penalty may be assessed.

10.) An illegal move is completed when the player presses the clock, whereupon the opponent may claim a win. A player who has played an illegal move may retract it before pressing the clock, but once the clock is pressed, the move is complete and retraction is not allowed. Illegal moves unnoticed by both players cannot be corrected afterwards.

11.) Moving the King next to another King is an illegal move. Intentionally playing a king next to the opponent's in order to take the opponent's king on the next move (if not caught) is a cheap shot and will not be tolerated! Stop the clock and claim a win because of an illegal move.

12.) If a player promotes a pawn and leaves the pawn on the board, the opponent may pause the clock while a replacement piece is found.

13.) If a player accidentally displaces one or more pieces, they shall be replaced the player's own time. If it is necessary, the opponent may press the clock without making a move. If the player presses the clock after displacing pieces, then a penalty may be assessed.

14.) In case of a dispute either player may stop the clock while the tournament director is being summoned. In any unclear situation the tournament director will consider the testimony of both players and any reliable witnesses before rendering a decision.

15.) The tournament director shall not pick up the clock except in the case of a dispute when it is necessary to do so in order to assess penalties or adjust time.

16.) Spectators and players in another game are not to speak or otherwise interfere. If a spectator interferes in any way that may affect the result of the game (e.g. calling attention to a flag fall or an illegal move), the tournament director may cancel the game and rule that a new game be played in its stead and expel the offending party from the playing room. If the offending party is participating in the event, penalties at the discretion of the tournament director may be assessed up to expulsion from the event.

17.) Standard penalty for first offense is to add one minute to the opponent's clock. There may be circumstances where a penalty assessed may not be standard (e.g. repeat offenses, unsporting behavior, etc...) and is left to the discretion of the tournament director.

18.) The decision of the tournament director is final.
